DETROIT'S CRASY FIREBUG ion That Such May Be the Ele

Dermorr, March 15.—It is not only of alse that measures have been taken to apture the fire-bug. For over a count special work by the police has seen done that ought to have brought the incendiary behind the bars, but neir efforts have failed. There seems title likelihood that the fire-bug is doing his work with the intention of stealing, is he does not pick out places where me would naturally expect to find raliables. He has made attempts to burn sheds, carpenter snope, barns and racent buildings, where destruction sould not possibly yield a burglar anything. It is probably the work of some cunning insane man, who enjoys he spectacle of a barning building. Last spring it was discovered that same if yellow a young man living in Hagiey avenue, had set fire to a frame inspected of setting fire to a shed in the reach attempts have occurred. He was found guilty in the recorder's overal physicians having pronounced him insane. He was then sent to the Fontiac asylum by order of Judge Durles, but was released March 7 last, as cured. ur, March 15.—It is not only of

Frank Griffiths, dward Kont, Thomas Kennedy and runk Fultan, all charged with conspiring to abduct and rob, will be summary disposed of by being nolle prosecuted. The story of the bold crime of he night of Murch 10, 1801, when Joseph Perrian, the wealthy miller, was beingted from his home and at a receiver's point forced to sign papers for \$15,000 is too well known to need repetition. As a result of the investigation made by the attorneys in the case, they have arrived at the conclusion that the defendants cannot be convicted of conspiracy. Had the charge been abduction functed of conspiracy. Had the charge been abduction would have been different.
